The Ideas for Community Award category honors 3 projects

Ms. Tran Mai Anh, Founder and Chairman of TN&F Foundation and Dinh Thi Quynh Van, Chairman of PwC Vietnam awarded Ideas for the Community Awards to 3 projects, specifically:

“Medicine cabinet for children” by Genestory Joint Stock Company

Carbamazepine (CBZ) is a highly effective, inexpensive epilepsy treatment drug but has the risk of causing severe damage. Genetic testing is a way to help doctors come up with a treatment plan suitable for the patient's genotype. GeneStory Company has connected with Thien Tam Foundation to offer free genetic screening solutions to disadvantaged families whose children are being treated for epilepsy.

The project has been deployed at 5 leading public hospitals in Vietnam, receiving and performing free screening tests for nearly 2,000 pediatric patients from more than 50 provinces and cities across the country. The test had nearly 25% of positive cases, equivalent to 500 children having a lifetime "safe drug use record" created.

“Support for cancer patients by” Community Medicine Organization

Cancer patients often have difficulty finding legitimate information amid the sea of misinformation about cancer that is spread uncontrollably.

Wishing to help patients access correct knowledge according to world standards, the Community Medicine Organization's Cancer Patient Support project was born with a network of nearly 400 collaborators.

They are medical staff, biomedical researchers, medical students... all sharing the same goal of helping thousands of patients feel secure and stronger during treatment.

“Everlasting stories of people” by Ethnicity Vietnam

By using digital art, the young people of the Ethnicity project have built a free library of preserving ethnic minority patterns to connect young people with traditional beauties that are gradually being forgotten, and promote them to the domestic and international community.

Thanks to the digital brocade library for each stitch and thread, the design and creative community can easily apply ethnic patterns to contemporary products. After 5 years of operation, Ethnicity has digitized the patterns of 19 ethnic groups with 580 preserved patterns, 105 - 119 creative patterns, 105 - 110 pattern applications in graphics and decoration, 56 illustrations, depicting the lives of indigenous people.

The Timely Project Award category honored 2 projects

Mr. Nguyen Van Thai, Director of Vietnam Wildlife Conservation Center Save Vietnam's Wildlife, Vice Chairman of the World Association of Pangolin Conservation Experts and Mr. Vuong Vu Thang, Chairman of the Board of Directors of VCCorp Joint Stock Company awarded the Honors Award. Timely project for 2 projects:

"Voluntary social platform" of Military Commercial Joint Stock Bank (MBBank)

The project to build "Vietnam Volunteer Social Network" is a pioneering project in Vietnam connecting philanthropists with people in difficult circumstances in a transparent manner, supporting subjects participating in charitable activities. Financial solutions easily.

The integrated technology solution project includes the Charity App and transparent volunteer payment accounts for organizations and individuals raising funds for the community and is developed on three pillars including: Technology application , promoting transparency and community connection.

Since its inception, the "Volunteer" application has always received responses from many volunteer organizations as well as reputable individuals participating. Currently, the application has about 1 million registered members, over 800 individuals and organizations participating in fundraising, more than 1,800 implemented campaigns and 400 billion VND in donations.

"Zero Tet Mini Supermarket" of Phu Nhuan Jewelry Joint Stock Company (PNJ)

In 2021, right when the people of Ho Chi Minh City are still fighting the Covid-19 epidemic every day, thousands of people suddenly

lost their source of income, making life even more difficult, "Tet mini supermarkets 0 VND" was spread throughout the city. Each person coming to this special supermarket will be able to personally choose the items they need. This is a project full of practicality, with the right people at the right time, quickly and promptly, and the ability to be replicated not only in Ho Chi Minh City but also in many other provinces.

In 2021, "Zero Tet Mini Supermarket" promptly supported more than 140 thousand people with a scale of 54 offline supermarkets and 2 online supermarkets in Ho Chi Minh City and Hanoi. Then gradually expanded to 11 cities across the country with a total cost of 70 billion VND.

By 2022: The project continues to take care of Tet for more than 30 thousand people in difficulty after Covid-19 with 32 supermarkets in Ho Chi Minh City and 6 offline supermarkets simultaneously taking place nationwide with a total cost of more than 12 million VND. billions dong.

Continuing in 2023: "Zero Tet Mini Supermarket" has helped nearly 20 thousand people with 5 large-scale supermarket clusters in Ho Chi Minh City and simultaneously taking place in 8 provinces and cities across the country.

The Promising Project Award category honors 4 projects

Mr. Tran Quy Kien, Deputy Minister of Natural Resources and Environment and Mr. Nguyen Hoang Giang, Deputy Minister of Science and Technology awarded Promising Project Awards to 4 projects, specifically:

TokyoLife Angel of IntelliLife Joint Stock Company

In Hanoi, there is a garment factory lovingly called "Angel Garment Factory" with most of the workforce being people with disabilities. In addition to the steady sound of sewing machines, this place is also filled with the laughter of less fortunate people.

TokyoLife calls people with disabilities working at the company "angels", because they are completely capable of creating great values not only materially but also mentally. Skills training for people with disabilities is a difficult task, TokyoLife is a pioneer in building a training and integration recruitment process specifically for this special group of personnel.

Raising baby Moc Chau

The project "Raising Children in Moc Chau" by Lieutenant Duong Hai Anh and his teammates has brought many delicious meals to students in the Northwest mountains. After only 3 years of implementation, there have been 2.5 million nutritious meals for children, 22 spacious schools have been built, 8 happy houses and many projects serving living and studying at the school. The little feet that every day walked through the rocks and stones of mountains and forests in search of words no longer had to work hard thanks to the warm affection of the young lieutenant and the soldiers of the People's Police.

Fly To Sky charity group

"What can young people do?" is the question that Le Van Phuc (born 2004) always asked himself when he was 16 years old. Along with the desire to help difficult situations in his homeland, Phuc "invited" friends to the Fly To Sky Project. After 5 years of leading a team of enthusiastic young members, Fly To Sky has implemented 27 projects spanning 22 provinces/cities, with a total budget of up to 10 billion VND.

The group's projects and programs have helped about 16,000 children use clean water when going to school, contributed more than 50 thousand books, and managed 33 libraries nationwide.

MOMO piggy bank

After nearly 4 years (from September 2019 to present), MoMo Piggy Bank has more than 10 million users/donors and more than 70 partners (including NGOs, NPOs, businesses and famous brands).), creating real values with about 250 billion VND donated from individuals and businesses, more than 1,000 successful donation projects on Nhan Ai Wallet.

The project has helped more than 325 thousand children, the elderly, women, and disadvantaged people by planting trees to green up bare land, protecting the environment and protecting wildlife throughout Vietnam.

December 11, 2023 20:00

The Resilient Project Award category honors 4 projects

Ms. Nguyen Thi Thu Ha, Member of the Party Central Committee, Vice President - General Secretary of the Central Committee of the Vietnam Fatherland Front and Mr. Martin Rama, former World Bank Chief Economist in Vietnam, World Bank Advisor presented the Award. Project Perseverance for 4 initiatives:

Stand Tall Vietnam Milk Fund (Vietnam Dairy Joint Stock Company)

"Vietnam Stand Tall Milk Fund" is the largest and most sustainable program for children in Vietnam. The Fund has persistently brought milk to children in difficult circumstances and special circumstances at shelters, social support centers... across the country. Thereby, contributing to raising society's awareness of the importance of nutrition for children, towards a healthy lifestyle; is the foundation to realize the dream, giving wings to the next generation to reach high and far.

After 16 years of implementation, the Fund has donated more than 42 million glasses of milk to more than 500 thousand disadvantaged children nationwide, equivalent to 200 billion VND. Every smile, every dream of a child is a motivation to help the Stand Tall Vietnam Milk Fund constantly strive to bring children a better and healthier life.

Connecting love with the Golden Lotus (Vietnam Airlines)

With the desire to receive cooperation and companionship from partners, customers, and Lotusmiles members, Vietnam Airlines has come up with the idea of donating bonus miles to convert into money and airline tickets for charity activities. community. Through the program "From Golden Lotus with Love" from 2018 to present, thousands of miles of charity have helped 8,100 children have surgery, 88 doctors have been trained, and 149 flight tickets have been sponsored. , successfully operated on 20 children with early craniofacial deformities.

Hope Fund

Officially in operation since 2017 and operated by VnExpress Newspaper and FPT Joint Stock Company, the Hope Fund is one of the few charitable funds operating professionally in Vietnam with two main goals: Supporting humanitarian causes. difficult situations and create motivation for development.

The Foundation's 5 main programs up to now include: "School Light", "Elevating Children to School", "Sun of Hope", "Computers for Children", especially School of Hope, was opened to receive orphans due to the Covid-19 epidemic.

As of August 2023, the Hope Fund has built and repaired more than 130 degraded schools; built more than 330 solid concrete bridges, helping students get to school safely. The fund also gave more than 3,000 online learning devices to poor students during the epidemic season, supported more than 2,100 pediatric cancer patients and many children in difficult circumstances in 40 provinces and cities across the country.

Turn off the lights and turn on ideas (BOO Trading Joint Stock Company)

“Turn off the lights and turn on the idea” comes solely from the desire to contribute to the community and inspire to change the awareness and actions of Vietnamese youth about environmental protection. After 14 years, there have been more than 5 million people supporting the project, more than 25,000 fundraising products, 19,000 trees planted in forests and 14,000 publications communicating environmental messages.

The project is built based on the national situation and develops based on available resources, which is the community. Therefore, it has the potential to be replicated in any country, condition, or culture.

The Inspirational Project Award category honors 5 projects

Mr. Pham Tat Thang, Member of the Party Central Committee, Standing Deputy Head of the Central Mass Mobilization Commission and Mr. Que Dinh Nguyen, Deputy Editor-in-Chief of Nhan Dan Newspaper awarded the Inspirational Project Award to 5 initiatives:

Raise me

The "Raising Children" project has brought full meals to nearly hundreds of thousands of children in highland areas thanks to the cooperation of the community. With only 150 thousand VND/month, each person can completely raise a baby with skin and flesh.

With a transparent and sustainable model, "Raising Children" has encouraged all members of the community to join hands and contribute. Up to now, 95,000 highland children have been fed lunch with 60,000 foster siblings across the country. In addition, there are 450 public works, an average of 15-20 schools built each year as well as many other necessary facilities provided to schools...

Heart for you

After 15 years, "Heart for You" is one of the longest-lasting projects in Vietnam thanks to the persistent companionship of millions of kindnesses at home and abroad. Up to now, through the project, 6,500 children have received financial support for heart surgery; 91 screening programs across the country; 150 thousand children were screened for free; 200 billion VND in donations; VND 15.15 billion invested in improving surgical capacity for hospitals; 1,000 Viettel stores received program applications; 70 billion VND contribution from Viettel.

FAS Angel

Every night, FAS Angel with 150 volunteer members is assigned to work on accident-prone roads to promptly help people. To date, FAS Angel has participated in providing first aid in more than 17,000 cases with more than 10,000 people saved and the rescue cost was 0 VND.

Salt Cancer Initiative

Salt Cancer Initiative (SCI) - founded by Thuy Muoi in 2020, operates with a common purpose for the cancer patient community: providing active spiritual support, knowledge and effective treatment conditions. best.

During the 6-year journey, SCI has connected nearly 30 thousand patients, relatives and people interested in cancer. Coming to SCI, people share inspirational stories in which they themselves are the central characters to spread the energy to live positively.

LOAN Fund

With the desire to replace Loan's mother in expressing gratitude to her homeland by supporting education, writer Isabelle Müller - her youngest daughter - established the LOAN Foundation to help the most vulnerable children in Vietnam have a good life. better.

100% of support cases are actually checked by the Fund and the impact on children is monitored. In 7 years, the Fund has implemented 39 projects in 8 provinces and cities. Nearly 5,000 Vietnamese children benefited from direct help, and 23 orphans and other children found sponsors in Germany.

December 11, 2023 20:34

The Sustainable Project Award category honors 5 projects

Mr. Le Quoc Minh, Member of the Party Central Committee, Editor-in-Chief of Nhan Dan Newspaper, Deputy Head of the Central Propaganda Department, Chairman of the Vietnam Journalists Association, Head of the Award Organizing Committee and Mr. Nguyen Dac Vinh, Member of the Central Committee The Party, Member of the National Assembly

Standing Committee, Chairman of the National Assembly's Culture and Education Committee awarded Sustainable Project Awards to 5 initiatives, specifically:

GreenPlan

Through the GreenPlan project of Traphaco Joint Stock Company, for the first time in Vietnam, there is a complete set of identification of medicinal plants and medicinal herbs: The set of identification of "Hoa Son root and medicinal herbs" from morphological and special characteristics. chemical points to molecular biological characteristics.

Applying GACP-WHO pharmaceutical production control and traceability software on the web platform, the project also supports software deployment at pharmaceutical production facilities via phone and internet networks to ensure safety. Ensure uniform quality across growing areas.

In addition, GreenPlan has made GACP-WHO standards - "Good farming and harvesting practices as recommended by the World Health Organization (WHO)" popular in Vietnam. The project has 5 types of medicinal plants out of a total of 12 plants in Vietnam that meet GACP-WHO standards with a total planting and harvesting area of nearly 36 thousand hectares.

The project has helped stabilize the lives of more than 1,434 workers with the average income of workers always growing by 5-10%/year, bringing livelihoods and enrichment to thousands of farming households in pharmaceutical production areas. Whether. In growing areas, people's income can reach 100-200 million VND/year.

The circular economy of plastics

To turn plastic into a resource instead of waste, Unilever has worked with partners to build a circular plastic economy in Vietnam.

Outstanding activities include: Exchanging trash for gifts and working with partners to commit to climate action through building a zero-carbon value chain by 2039.

Sustainable Development Fund

Six Senses' biodiversity conservation project in Ninh Van Bay (Khanh Hoa) has brought an innovative and sustainable model of how people can keep the gifts of creation.

Through field trips and efforts to record and monitor species in the area, to date, the project has recorded 150 species of plants, 111 species of coral, 80 species of insects, 32 species of birds, 20 species of reptiles, 11 mammals, 7 amphibians and announced a new plant species named after the resort, Six Senses Turmeric.

In particular, the forest of the Six Senses Ninh Van Bay resort has become home to rare animals such as black-shanked douc langurs, green sea turtles and silver-backed chevrotain. Among them, 7 families of black-shanked douc langurs have been protected and

recorded since 2019. The number of langur individuals has increased from 109 to 157 individuals.

In addition, thanks to the determination to coordinate with the Nha Trang Institute of Oceanography, 500m² of coral reefs on Ninh Van Bay have been restored with positive results with 91% success. The planted coral frames grew an average of 1.5cm in length per month.

Safe House Project

The Safe House project of Song Foundation has worked side by side to find solutions to help people adapt to annual floods and lead a more sustainable life. For the first time, Vietnam has 9 Safe House models suitable for each type of natural disaster, each terrain and geology of each region: House with low floors; House with high foundation; House with flexible foundation; A two-story house only has one person living in it; The two-story house has room for livestock; Three-room house with attic; Tube house with attic; Separate floating house; Floating houses attached to houses,

By the end of June 2023, the Project has supported the construction of 1,203 safe houses.

Smart rice farming adapts to climate change in the Mekong Delta

Accompanying farmers in the Mekong Delta, Binh Dien Fertilizer Joint Stock Company brings many initiatives and builds an integrated model to help farmers better adapt to extreme weather conditions, reduce costs and increase farming productivity such as installing salt water monitoring stations and pest monitoring; develop many improved technical farming methods such as tillage according to each soil type and crop; train farmers to become experts with in-depth understanding of crops, weather, soil...

"Don't hesitate to do good deeds, don't hesitate to spread good stories in life"

Speaking at the Award Gala, Mr. Le Quoc Minh, Member of the Party Central Committee, Editor-in-Chief of Nhan Dan Newspaper, Deputy Head of the Central Propaganda Department, Chairman of the Vietnam Journalists Association, Head of the Award Organizing Committee said, The Community Action Award was initiated by Nhan Dan Newspaper in an effort to find pioneering units and individuals who dare to take the first steps on a journey full of difficulties and challenges.

“Among the nearly 130 entries sent to us, there are many individuals, organizations and units that quietly started their journey several decades ago. They work, test and adjust, and worry about ways to improve their programs/projects to become more systematic and professional, to create even stronger impacts, thereby bringing many changes to an area, or simply helping individual lives. Their concern, steadfast belief and enthusiasm are endless inspiration for us - the organizers of the Award”, Mr. Le Quoc Minh emphasized.

Reviewing a few typical examples, the Editor-in-Chief of Nhan Dan Newspaper affirmed: The Community Action Award not only looks for projects that provide timely support, but also projects that have the ability to spread and propagate. widespread inspiration, but the Organizing Committee also found pioneers who dared to take the first steps to find a development model towards sustainability, creating a change in the face of an entire region, of a country. Economics. Even further, they have put Vietnam's name on the world's sustainable development map and become a model for many other countries to follow.

According to Mr. Le Quoc Minh, these first steps will open a new journey, because if there are pioneers, there will certainly be others who follow. To move towards sustainable development for the whole society, we need the cooperation of many people, many organizations, and many businesses.

“We hope that the values that the Community Action Awards are trying to promote will create inspiration for the whole society to participate. Any action for the community, no matter how big or small, will contribute towards the greater goal that we all want - a quality and sustainable life for the whole society. Don't hesitate to do good deeds, and don't hesitate to spread good stories in life”, emphasized the Head of the Award Organizing Committee.

December 11, 2023 20:55

5 excellent initiatives won the Human Act Prize

Mr. Lai Xuan Mon, Member of the Party Central Committee, Standing Deputy Head of the Central Propaganda Department awarded the Human Act Prize to 5 excellent projects and initiatives. This is the most important award category of Nhan Dan Newspaper's Community Action Award - Human Act Prize 2023.

Vinamilk Pathways to Dairy Net Zero Action Program (Vietnam Dairy Products Joint Stock Company)

At the end of May 2023, Vinamilk's Nghe An Dairy Factory and Nghe An Dairy Farm achieved carbon neutral certification, becoming the first factory and farm in the dairy industry to achieve this important milestone.

Vinamilk is one of the first enterprises in Vietnam to measure and inventory greenhouse emissions according to ISO standards for 100 factories. Full understanding of data is an important foundation to build an effective emission reduction roadmap with 3 stages: "Reduction - Conversion - Absorption" equivalent to Vinamilk's 3 processes towards Net Zero.

At farms, Vinamilk applies the principle that the output of one process is fully utilized as input for another process. Thereby reducing resource exploitation, waste treatment costs and environmental pollution in farm construction and operation. Every day, a herd of 8,000 dairy cows produces 30 tons of manure. All of this waste is collected and processed with Biogas composting technology, and the output is fertilizer, water, and gas.

Connecting community strength to prevent natural disasters

In 2008, with the initiative and leadership of Mr. Phan Dien, former member of the Politburo, former Standing Committee of the Secretariat of the Communist Party of Vietnam, and many prestigious individuals and organizations established the Prevention Community Fund. avoid natural disasters.

Persistent in 15 years of development with 5 key and comprehensive program groups, the Fund has built hundreds of public works to develop people's livelihood; improve natural disaster prevention capacity for people nationwide; Transfer the hearts and donations of benefactors to those in need of help in a full, complete, open and transparent manner.

For a better life (L'Oréal Vietnam)

"For a better life" (Beauty For A Better Life) has trained disadvantaged women with vocational training opportunities to be able to have a career and improve their lives.

This is considered the most effective and large-scale sustainable livelihood model when training 11,200 students, creating 9,000 direct jobs and 4,500 indirect jobs. At the same time, this is also the first time in Vietnam that there is a systematic and formal hair training program on a large scale for disadvantaged people.

Action to overcome the consequences of landmines and bombs after the war in Vietnam (Norwegian People's Aid (NPA) Vietnam)

Although the war ended decades ago, its consequences still affect the lives of Vietnamese people to this day, because cluster bombs and other explosive devices (BMVN) are still scattered across the

country. , all 63 provinces and cities are polluted by BMVN to varying degrees.

With the desire to support the Government and people of Vietnam in eliminating remnants from the old war, Norwegian People's Aid (NPA), with experience operating in the field of mine action in more than 40 countries, participants around the world, has been establishing a program in Vietnam since 2007 aimed at addressing the long-term consequences of BMVN that are affecting the lives and livelihoods of people across the country.

To date, nearly 35 thousand explosive materials have been discovered and safely handled. NPA activities have directly supported 11,078 women, 8,791 girls, 11,483 men and 8,957 boys.

Changing the nature of Vietnam's dairy industry on the basis of sustainable development, for public health (TH Group Joint Stock Company)

Entering the fresh milk industry when 92% of liquid milk products in Vietnam were reconstituted powdered milk and the Melamine-contaminated milk crisis in China caused global public opinion, TH created a revolution in clean fresh milk. , helping to make the dairy industry transparent and bring nutritious milk to millions of Vietnamese children.

By establishing a large-scale high-tech dairy farm - approaching 70 thousand cows, TH has brought Vietnam from a country with no name on the milk production map to a country that owns a "Farm Cluster". focusing on applying high technology with the world's largest closed production process" (Certified by World Records Union in 2020). TH is also the first and only unit in Vietnam that currently has a herd of dairy cows converted to organic farming in the sunny and windy land of Nghe An - Vietnam.

The appearance of TH has pushed businesses in the industry to compete in quality, deploy dairy farming, and increase the proportion of liquid milk processed from pure fresh milk from 8% in 2008 to 60% in 2022. With TH's initiatives and proposals, for the first time, Vietnam has developed and promulgated national standards on raw milk products. Also from here, people are more aware of the concept of fresh milk and reconstituted milk.

"Vietnamese nutrition project" and "School milk - For Vietnamese stature" program are pioneering efforts accompanying the Government that have had a large-scale impact on nutrition to reduce malnutrition rates. , micronutrient deficiency in children; Improve the physical strength and stature of Vietnamese children and adolescents, moving towards improving the quality of Vietnamese human resources. The TH school MILK initiative became the first product confirmed by the Ministry of Health to be effective in research on improving the nutritional and micronutrient status of children.

From a country not considered the land of milk and dairy cows, the project has brought the Vietnamese dairy brand to an international mark with a Gold award in the Russian Federation, special awards in Dubai (UAE), Korea... By starting the project of

dairy farming and milk processing complex phase 1 of TH Group in Russia, with an investment of 500 million USD, along with promoting market expansion in China, Russia, Australia and ASEAN and TH countries are realizing the dream of Vietnamese milk reaching the world.

After more than 3 years of incubating ideas and 70 days of urgent activities, Nhan Dan Newspaper's Community Action Award - Human Act Prize 2023 has reached the final stage of its first year's journey with the theme "First Imprints".

There were 129 entries submitted for the award, from many areas of life, from macro to micro. Besides projects from domestic individuals and businesses, there are also many projects from international organizations.

Many projects have been implemented persistently for decades with high commitment and sustainability. In addition, there are also small but extremely creative projects that are pervasive and have great impact.

From the 35 project profiles that reached the final round, the Jury selected the best projects to award. The Human Act Prize's award categories are evaluated based on criteria ensuring impact, sustainability, commitment, creativity and community spread.

Human Act Prize 2023 categories with the theme "Pioneer Imprint" include:

1. **The Ideas for the Community** category honors projects with feasible implementation ideas that contribute to promoting the community in a more positive and sustainable direction.
2. **The Project** category honors groundbreaking community projects that solve urgent social problems, including:
 - **The Timely Project** honors initiatives that effectively respond to urgent issues and the spirit of willingness to commit to the community;
 - **The Prospect Project** honors projects that have the ability to develop quickly and widely in the future;
 - **The Resilience Project** honors admirable efforts to sustain and grow long-term community impact;
 - **The Inspire Project** honors community activities with high humanity, the ability to spread and replicate, activating the great power of the community;
 - **The Sustainability Project** honors scientifically engineered innovations that deliver outstanding long-term and profound impact on communities.
3. **The Human Act Prize** category is a landmark, honoring actions that bring positive and sustainable contributions to the community.

Up to the night of the Award Gala, there were more than 90 media units from central to local levels accompanying the Award to spread the values sought by the Human Act Prize through more than 900 articles and 50

television news reports . images, more than **350** articles on social media channels, reaching more than **4** million readers on multiple media platforms.

Not only does it honor and spread, the Human Act Prize also accompanies, orients and connects all individuals and groups that have, are and will carry responsibility for the community in their journey. with the goal of making all community activities in Vietnam transparent, scientific, effective and humane. Accordingly, valuable initiatives and ideas for the community and practical lessons about project models have been stored on the Community Initiative Library for all those who are interested but do not know how to do it. do, do not have ideas that can be consulted and learned.

Within the framework of the award, for the first time an exhibition of **Action for Community** was organized. The exhibition has contributed to bringing the journey of pioneers acting for the community closer to the public through shared stories and direct experiential activities when exhibition visitors have the opportunity to The opportunity to participate in a workshop on recycling rags with people with disabilities, a workshop on painting on straw paper, and a performance of the Protest Doll Puppet Theater...

“Human Act Prize for Community Action of Nhan Dan Newspaper”

"Human Act Prize" is organized by Nhan Dan Newspaper, with the participation of the Ministry of Labor, War Invalids and Social Affairs, the Ministry of Natural Resources and Environment, the Ministry of Science and Technology, along with the organizational coordination of VCCorp Joint Stock Company and sponsor Bac A Bank Diamond. The award aims to honor individuals and organizations that have made positive contributions to society through prestigious community initiatives and projects, bringing long-term and sustainable effects.

Not only honoring and spreading, the Human Act Prize was also born with the goal of accompanying, orienting and connecting all individuals and groups that have, are and will carry responsibility for the cause. community on their journey.
