SUCCESS

The first Human Act Prize aims to honor individuals and organizations that have made positive contributions to society through prestigious community initiatives and projects that bring lasting results, long and sustainable.

Mr. Le Quoc Minh said that the award was initiated by *Nhan Dan* Newspaper in an effort to find pioneering units and individuals, those who dare to take the first steps on a journey full of difficulties and challenges.

Among the nearly 130 entries submitted, there are many individuals, organizations and units that quietly started their journey several decades ago. They experiment and adjust while trying to find ways to improve their programs and projects to become more systematic and professional to create even stronger impacts; thereby bringing many changes to an area, or simply helping individual lives.
