Recently, 1,000 paper cranes for peace arranged by Hope School students, with the companionship of Ms. Isabelle Müller - founder of Loan Foundation, were lit up with the theme "Hope is my road" in the garden of Calw city, southern Germany.

This is an artistically arranged event by Linda Wendel and Bart Dewijze, following an idea from the Sparkasse Foundation "For the Region - With Hearts and Hands".

Ms. Isabelle Müller shared: "Hope is a story associated with the life of my mother, a Vietnamese woman. Especially when I had the opportunity to visit Hope School and see the children here filled with hope, I understood and better understood that Hope's path is to be committed and loved. 1,000 cranes symbolize 1,000 destinies, 1,000 dreams lit up with Hope, and Hope itself will be the light that guides us to dreams."
